

**A Two days faculty development program on
Microsoft .Net Framework for Project Development Environment**

The department of Computer Science and Engineering conducted a Two day faculty development program, titled “Microsoft .Net framework for project development Environment” under ISTE faculty chapter on 19th and 20th December 2015. Dr. P. Nageswara Rao, the principal of the college is the chief guest for the inaugural session. In his key note addressing, stated that students imbued with technology will attain right destiny. The convener of the program Dr. S. Prem Kumar, HOD of CSE department enlightened the audience the importance of .Net in research and development. The resource person Mr. P. Prasanna, demonstrated the critical problems and their solutions through .Net using ADO.Net and ASP.Net. The practice sessions made faculty confident in grabbing the concepts and their real time implementation. The FDP is a grand success which concluded with a valedictory function and feedback from faculty attended from various engineering colleges.
